

## Securely and efficiently manage the record.

FTR Manager™ enables courts to easily:

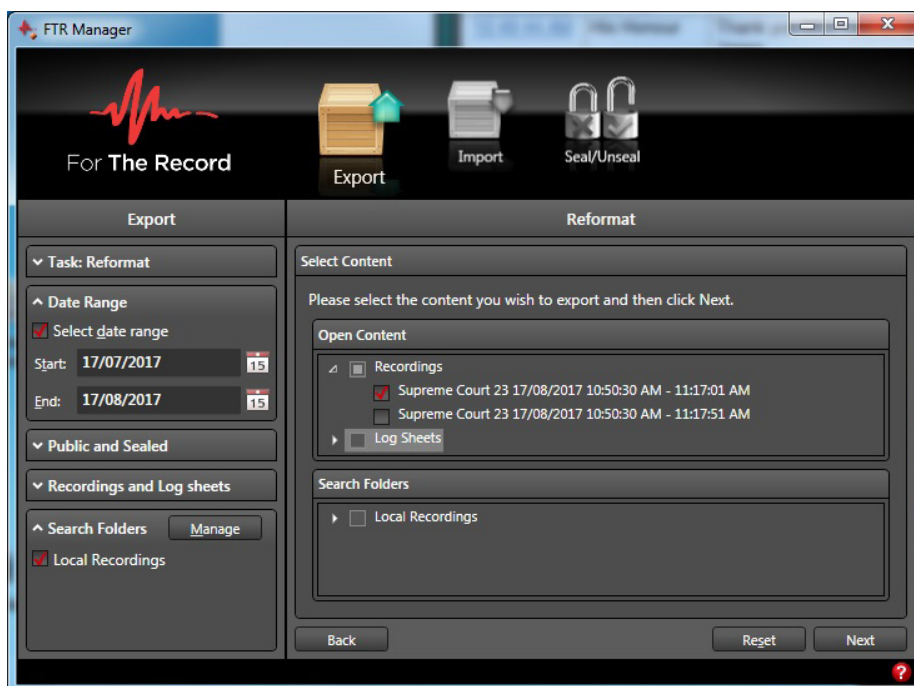

- Save to a CD or DVD for playback.
- Access FTR content through enhanced format converting and archiving.
- Encrypt/decrypt content with an authorized password and apply access controls to content.

## Benefits

- Automatically provide content in the format required - you are not tied to a proprietary format.
- Centrally manage the storage of sensitive recordings and seal them for access by 'need to know' users only.

## Key Features

- Format-friendly accessibility
- Sealed recordings

For The Record

## Works with

- FTR Gold™, the industry standard in multichannel digital audio/video court recording.
- FTR Gold Server™ lets your organization move towards a centralized recording model, effectively leveraging server hardware technology to capture audio feeds from up to 16 individual rooms on a single server.
- FTR Log Notes™ provides digital court record users with a time driven interactive map of the recording.
- FTR Monitor™ lets a single user manage the recording of one or many remote FTR recorders across a network from a single PC.
- FTR Player™ lets you use the record as it was intended with full control over microphone volume, speech speed and foot pedal support.

## Minimum System Requirements

System requirements vary. Please contact us for assistance.

## Features of FTR Manager™

- Decrypt recordings encrypted with FTR Manager.
- Save content to CD/DVD or USB media.
- Convert data, CD-Audio or DVD Video formats.
- Replicate content to a network folder or a FTR Warehouse repository.
- Split channels in a multi-channel recording.
- Convert to WMF, MP3, AVI, single file (CM/ECF) or audio-only formats.
- Dual archiving to CD/DVD and network/ FTR Warehouse.
- Migrate/restore content to/from CD/DVD or network.
- Real-time and post sealing of recordings to CD/DVD or network.
- Redact confidential log notes when unsealing.
- Encrypt copies of select recordings and log sheets.
