

## Enhanced ease, robust reliability and powerful functionality

Capture and manage the court record using the latest digital technology with the new FTR Gold™ 6.1.

From high fidelity audio and HD video recording, easy annotation, advanced storage and access, FTR Gold™ 6.1, with FTR Reporter™, FTR Manager™, FTR Player™ and FTR Log Notes™ has everything you need to record with confidence.

## Benefits

- Record every word with eight-channel high fidelity audio and HD video digital court recording capabilities.
- Use and install with ease with an updated modern interface (with the option to use the classic design), and a new installer including the ability to silently install and deploy the FTR Gold Recording Suite™ and uninstall previous versions of FTR Reporter™ (5.6 and above) and the FTR Gold Recording Suite™ (5.7 and above).
- Never miss a thing with faster recording start-up and automatic detection and alerts for loss of signal and low audio levels based on ambient noise levels.
- Monitor and control one or more recording environments from a single PC on your network.
- Take the guesswork out of recalling and locating critical moments for playback. Mark important events, create quick notes and insert time stamps for information such as participants/appearances, spellings and key terminology. Even create log notes remotely after the event.
- Enjoy even more flexibility with integration with case management systems and increased compatibility with a wider range of networked and USB audio interfaces.
- Better manage and provide access to recordings with configurable save destinations to suit multi-jurisdictions and archiving in line with relevant retention policies.

## Includes

- FTR Reporter™
- FTR Player™
- FTR Manager™
- FTR Log Notes™

FTR Gold Monitoring Suite™

For **The Record**

## Works with

- **FTR Gold Server™** lets your organization move towards a centralized recording model, effectively leveraging server hardware technology to capture audio feeds from up to 16 individual recording rooms on a single server.
- **FTR Player™** lets you use the record as it was intended with full control over microphone volume, speech speed and foot pedal support.
- **FTR Manager™** introduces the concept of sealing and unsealing recordings across your sites and allows authorized users the ability to lockdown access to sensitive recordings.
- **FTR Manager + Warehouse™** supercharges your FTR recording archival by leveraging indexing and search technologies to provide instant content file location and playback from anywhere on your network.

## Minimum System Requirements

- Windows® 7 and Windows® 10.
- Intel® Core™ i5- 8400 processor equivalent or higher with 4GB RAM.

## Key Features

- Updated user interface
- Easy installer and updater for streamlined installation and upgrades
- Automatic alerts
- Remote control
- Configurable save destinations to suit multi-jurisdictions
- CMS integration

The screenshot shows the FTR Gold software interface. At the top, there's a menu bar with various icons. Below it, a playback control bar shows a play button, a progress bar, and a timestamp of 10:51:59 AM. The recording is identified as 'Supreme Court 23'. Below the playback bar, there's a dropdown menu showing 'Case 23042 of 2017'. A table displays the transcript with columns for Time, Speaker, and Note.

Time	Speaker	Note
10:47:07 AM	Mrs Tan	You're welcome your honour
10:48:19 AM	His Honour	Can you please describe the events of the evening
10:49:00 AM	Mrs Tan	On the evening of the 19th
10:49:44 AM	His Honour	Thank you Mrs Tan, do you have something to say Mr Jones
10:50:06 AM	Mr Jones	No your honour

At the bottom of the interface, it shows 'To archive: 00:01' and 'Record space: 344.1 GB'.
