

## All-in-one recording device

The new FTR Touch™ puts a compact, reliable and easy-to-use digital court recording workstation right at your fingertips. Its small footprint and reliable performance is ideal for courts requiring stand-alone HD audio and video recording with minimal operator training.

FTR Touch™ also allows for flexibility in your digital recording environment by interfacing with a large variety of USB mixers and IP cameras.

## Benefits

- Record, annotate, store and play back FTR court recordings.
- Space-saving design.
- Easy deployment.
- Minimal operator training required.
- Accidental damage protection.
- Take the guesswork out of recalling and locating critical moments for playback. Mark important events, create quick notes and insert time stamps for information such as participants/ appearances, spellings and key terminology. Even create log notes remotely after the event.
- FTR Touch™ users with an active FTR support contract can now take advantage of FTR's software assurance options.
- Able to be run in limited kiosk mode preventing access to Windows 10 interface without an administrator password.

## Includes

- FTR Reporter™
- FTR Player™
- FTR Manager™
- Dell All-in-One touch-screen PC
- 1 year of support and maintenance

For The Record™
