

Enhanced ease, robust reliability and powerful functionality

Capture and manage the court record using the latest digital technology with the new FTR Gold™ Recording Suite - the industry standard.

From high fidelity audio and HD video recording on-site or remotely, easy annotation, advanced storage and access, FTR Gold™ Recording Suite has everything you need to record with confidence.

Time	Speaker	Note
10:47:07 AM	Mrs Tan	You're welcome your honour
10:48:19 AM	His Honour	Can you please describe the events of the evening
10:49:00 AM	Mrs Tan	On the evening of the 19th
10:49:44 AM	His Honour	Thank you Mrs Tan, do you have something to say Mr Jones
10:50:06 AM	Mr Jones	No your honour

FTR Reporter™

Benefits

- Record every word with up to eight-channel high fidelity audio and up to four channel HD video streams.
- Multiple archival options to suit your needs.
- Remote control using FTR Monitor or via serial or ethernet control.
- Loss of signal detection.
- Mark important events, create quick notes and insert time stamps for information such as participants/appearances, spellings and key terminology. Even create log notes remotely after the event.
- Interface with case management systems and increased compatibility with a wider range of networked and USB audio/video interfaces.
- Seal and unseal sensitive recordings (on the fly or after the fact), convert file formats, apply access controls, and import other audio files into your FTR environment.
- Better manage and provide access to recordings with configurable save destinations to suit multi-jurisdictions and archiving in line with relevant retention policies.
- Identify speakers accurately during annotation with improved contrast between channels, more time, and enhanced sensitivity to quieter signals.
- Complete enterprise installation with ease.

For **The Record**™

Operating System Requirements

- Windows® 10.

Recommended System Specification

- CPU: Intel Core i5 (any generation CPU) RAM: 8GB
- Install space: 150MB of available storage
- Recording space: FTR recommends a separate partition for audio recordings
- Audio playback: On-board sound card for playback of recordings
- FTR compatible multi-channel audio capture device for audio recording
- FTR compatible video capture device for video recording
- If archiving to optical media, a compatible optical drive will be required
- If archiving to Network a network connection will be required
