#### Notes:

- Verify that the pre-requisites mentioned in the Installation Guide have been met.
- This version of FTR Reporter Server is compatible only with the latest version of Monitoring Suite 7.7.

### New/Updated Features from 7.0

- Introduces a new live streaming feature that enhances live listening and confidence monitoring experience in FTR Monitor. This feature directly streams the recording from Reporter Server to FTR Player within FTR Gold Monitoring Suite 7.7.
- Adds support for Windows server 2022 as an operating system.

## Issues Fixed from 7.0

- Addresses an issue where cleaner cannot clean-up TLL files in timely manner.
- Addresses an issue where the windows event log does not accurately indicate who stopped the recording during remote monitoring.
